

ProQuest for Washington Libraries—New Contract Begins on July 1, 2005

The Washington State Library has once again selected ProQuest for statewide access to full text journals and magazines. WSL invites participation from all non-profit, non-federally funded libraries in Washington State—including medical libraries! These are some of the full-text titles of interest:

Vaccine Weekly
Vascular and Endovascular Surgery

Cost of participation for hospital libraries depends on audience size, based on a formula developed by the Washington State Library in consultation with Edean Berglund, Robin Braun, and Bea Hellis:

FTEs working at the hospital times 1/3, plus number of affiliated physicians = Target audience

The Washington State Library has not yet announced exact pricing for the new contract, but a hypothetical hospital with 2300 FTE and 350 affiliated physicians will have an annual cost of about \$400.

Cost of participation for non-hospital, non-academic health libraries is based on staff FTE.

Cost of participation for community colleges and private academic institutions is based on student enrollment FTE.

If your library is already participating, you will receive renewal information from the Washington State Library. For information about your library's cost in this new contract, contact Karen Forsyth at the Washington State Library, kforsyth@secstate.wa.gov or 866-538-4996 (toll free).

If your library is not participating and you would like to begin, contact Karen Forsyth at the Washington State Library, kforsyth@secstate.wa.gov or 866-538-4996 (toll free).

March, 2005
